- ➤ Asset Assign - Lease & Sublease/Financial | Removed the field Lease From Available Date from the Lease and Sublease/Financial sections
- ➤ Asset Assign - Lease & Sublease/Financial | Removed the Off Hire and ERP Information sections from the Lease/Financial and Subleases sections of Asset Assign for Rail Equipment/Clients
- ➤ Mech Field Dates | Created a default component called Stub Sill in RALLTF category.

- ➢ Mech Field Dates |Added a Requalification Due field to the Rail Equipment Current Dates grid and Get Data section
- ➢ Equipment |System FASTRAC | Added three new FASTRAC's: SYSTEM CAR PROFILE LEASE DETAIL, SYSTEM CAR PROFILE SUBLEASE DETAIL, SYSTEM CAR LEASE/SUBLEASE DETAIL
- ➢ All Required Fields are now notated with an asterisk
- ➢ All Read Only Fields are now notated with a grey background

❖ BUG FIXES
- ➢ Lease Rider | When adding a new rider, populate the Lease Type based on the Lessor Fact.
- ➢ Equipment | Add Equipment | When user clicks Add to add a piece of equipment, EM will now scroll down to the detail section.
- ➢ Equipment | Add Equipment - Compartment | Users should not be able to use numbers greater than 6 or use the number "0" in the Num Compartments field when adding or updating a car.
- ➢ Equipment Component| Add Component | When the user adds a component with an Install more than 50 years ago 2 error messages occur. This is now showing correctly
- ➢ Equipment Component | The Equipment Component grid is now loading.
- ➢ Reference Objects | Grid is now loading properly focused at the top of the screen.
- ➢ Lease Rider | When attempting to add a new Asset Status to a piece of equipment (LSS to LSS Status with a new rider), system was providing invalid options. This is now corrected.
- ➢ Reference -Components | Delete of a component should not be allowed if the component is associated with a piece of equipment
